WILLIAMS'
FT. WAYNE DIRECTORY
FOR 1870-71;

TO WHICH IS APPENDED

A UNITED STATES POST OFFICE DIRECTORY.

SIXTH ISSUE:
COMPILED BY WILLIAMS & CO.

FORT WAYNE, IND.:
N. P. STOCKBRIDGE, No. 98 Columbla Street.
1870.

DIGEST OF UNITED STATES PATENT LAWS,

COMPILED BY

KNIGHT BROS.,

SOLICITORS OF PATENTS, CONSULTING ENGINEERS, AND COUNSELLORS IN PATENT CAUSES,

PIKE'S OPERA BUILDING, WESTERN ENTRANCE,
CINCINNATI, O.

1. **A PATENT** for seventeen years is granted to the first inventor of a new and useful Art, Machine, Manufacture, or Composition of Matter, not heretofore known in this country, nor published or patented in any foreign country. Application fee, \$15. Issue, \$20. Act 1861, Sec. 10.

2. **A CAVEAT** is useful as a precautionary step, in cases where the inventor requires further time or means to mature his invention, and entitles the party (for a year) to notice of any interfering application subsequently filed. Gov. fee, \$10. Act 1861, Sec. 10.

3. **APPLICATION** for Letters Patent, should be made within two years after the first sale, or public use of the invention, and must be accompanied by a Model, (where the case admits of one,) or a specimen of Ingredients and Composition: also, Petition, Oath, Duplicate Drawings, Specification, and Fee, (\$15). It must be made by the inventor, or (if deceased) by his administrator, for the benefit of the heirs. Act 1836, Sec. 6 and 10; Act 1839, Sec. 7.

4. **MODELS** may be of any durable material, avoiding glue, must not exceed twelve inches in length, and should particularly represent the points of invention.

5. **DESIGN.**—A patent for $3\frac{1}{2}$, 7, or 14 years, is allowed to any citizen of the United States, who originates a new carving or sculptural composition, or a new shape or configuration of any article of manufacture, or a new, ornamental, or useful design, pattern, or picture, to be worked into, or printed, or painted, or cast, or otherwise attached to any article of manufacture. Gov. fee, \$10, \$15, or \$30. Act 1861.

Photographic Illustrations of Designs must be accompanied by the "negatives," to enable copies to be made in the Patent Office.—Holt, Commissioner of Patents, 1857.

An engraved or printed design issued as an object of art, having a value in itself, and intended for sale as such, properly comes within the provisions of the copyright law; but when, however artistically executed, it is not produced for sale as a work of art, but is designed to be affixed in the manner of a label to a manufactured article, it then plainly falls under the act relating to patents for designs, and consequently can not be protected by copyright.—Bishop, Commis'r of Patents, Aug. 1859.

6. **COPYRIGHT** may be obtained for, 1st, Printed reading matter, forming no part of any ornament or manufacturer's mark; 2d, (Charts, musical compositions, and prints or engravings intended for sale as such. Act 1831, Sec. 1.

7. **REISSUE.**—Patents with defective specifications may be reissued in an amended form. Gov. fee, \$30. Act 1836, Sec. 13; Act 1861, Sec. 10.

Where by inadvertence, accident, or mistake, the original patent is too broad, a disclaimer may be filed either by the original patentee, or by any of his assignees. Fee, \$10. Act 1837, Sec. 7.

8. **EXTENSION.**—Application for extension must be made at least three months prior to the expiration of a patent. The chief points to be established, are: 1st, ascertained value of the invention; 2d, amount of loss and profit which have accrued from the invention; 3d, efforts made and difficulties incurred in maturing and introducing the invention. Application fee, \$50. Issue, \$30. Act 1848, Sec. 1; Act 1861, Sec. 10.

9. **FOREIGNERS** may obtain a patent on same terms as a citizen. Act 1861, Sec. 10.

10. **JOINT INVENTORS** are entitled to a joint patent, but neither can claim one separately.

11. **ASSIGNMENTS** may be made previous to application and should be recorded in United States Patent Office within three months.

12. **A PART OWNER** of a patent may, in the absence of any contract, assign his interest or any fractional part thereof, or he may, either alone or in company with others, purchase or make as many machines as he pleases, and may sell them to others with the right to use or sell them; or he may refuse to sell them, and may rent them; but he has no power to control the action of, nor to exercise any supervision over, a co-proprietor, nor to compel contribution of profits or losses, nor to enforce a partition of the right, nor is either party under any obligation to make the property profitable. Such parties must be regarded as having interests which are distinct and separate in their nature, though derived from the

INDEPENDENT INVENTORS of separate improvements in the same machine can not obtain a joint patent for their separate inventions, nor does the fact that one man furnishes the capital and the other makes the invention entitle them to take out a joint patent.—Fisher, Commissioner of Patents, Nov., 1869.

same instrument; and having the same interests, with the right to use them separately, they can not, for any legal use of them, incur any obligation to each other.—Chapman, J., Supreme Ct. Mass, 1864, p. 225. Allen Mass. Rep.

13. **THE SPECIFICATION** must set forth the invention in such full, clear, and exact terms, as to enable one skilled in the art to which it appertains, to compound and use it without making any experiments of his own.—5 Howard, 4.

14. **ABANDONMENT.**—If an inventor (before application for a patent) knowingly suffers his invention to go into public and general use without objection, it is a dedication of it to the public.—4 Mason, 108.

No patent is held to be invalid by reason of the purchase, sale, or use prior to the application for a patent, except on proof of the abandonment of the invention to the public; or that such purchase, sale, or prior use, has been for more than two years prior to such application for a patent. Act 1839, Sec. 7.

15. **PRIOR DESCRIPTION** in a public work, if relied upon to void a patent, must be such as would be sufficient in a patent.—Parker v. Stiles, M'Lean, Nov. 1849.

16. **AN IMPROVER** upon an original patent has no right to use the original, nor has the original patentee a right to use the improvement without license.—1 Peters, C. C. 389.

17. **MERE COLORABLE DIFFERENCES**, or slight improvements, can not shake the right of the original inventor.—2 Galt, 54.

18. **A COMBINATION CLAIM** is not infringed by the use of any number of parts less than the whole.—3 M'Lean, 434.

19. **LEGITIMATE COMBINATION**, is where two or more parts act together, in a new way, with a useful result.

20. **MECHANICAL EQUIVALENT** means a substitute known to the art.

21. **THE PRODUCT** of a patented machine is not patent property.—3 M'Lean, 296-97.

22. **LOCAL RIGHTS.**—Patented articles purchased under a local right can not be sold or used outside of the territory of the vendor.

23. **PATENTEES** are required to mark each article made or vended under their patent, (or where this is impracticable, to mark the package) with the word "patented," and the day and year; but infringers, who have been duly notified, are liable, notwithstanding the omission of such marking by the patentee. Act 1861, Sec. 13.

24. **PENALTY** of not less than \$100 and costs is incurred for each fraudulent marking of unpatented articles with the word "patent" or like phrase, or for unauthorized use of a patentee's mark. Act 1842, Sec. 5.

25. **THE INVENTION**, if new, and useful to the public, may be the result either of long experiment and profound research, or of a sudden and lucky thought or mere accidental discovery.*** Luck, labor, or inspiration gives an equal right.—Tindal, C. J.

The first inventor has the prior right, if he had reduced the invention to a practical form by drawing or otherwise, and has used reasonable diligence in adapting and perfecting it.—1 Story, 590-596.

There is no doubt that he who has discovered some new element or property of matter, may secure to himself the ownership of his discovery, so soon as he has been able to illustrate its practicability and to demonstrate its value. His patent, in such a case, will be commensurate with the principle it announces to the world, and may be as broad as the mental conception itself. But the mental conception must have been susceptible of embodiment, and must, in fact, have been embodied in some mechanical device, or in some process or art. The abstract must be resolved into the concrete. The patent must be for a thing, not for an idea merely.—Kane, J., U. S. D. C. Pa.

26. **SECRET USE.**—The inventor, who, from selfishness, indifference, or caprice, wishes to withhold from the knowledge and enjoyment of his fellow-citizens a discovery which he has made, must see to it, that, in burying his "secret," he preserves proof of its existence, ready to be produced whenever the action of another and more generous inventor shall summon him to the issue.—Holt, Commissioner of Patents, Nov., 1858.

P R E F A C E.

We present to our patrons the SIXTH ISSUE of the FORT WAYNE DIRECTORY, believing it will be found a correct and reliable guide to the Business Houses, Offices, Residences and Public Places of the City. The canvass to collect the information contained in the Work was superintended by H. THORNTON BENNETT, Esq., whose reputation as an experienced, energetic and reliable compiler is not surpassed by any one engaged in the business. Every means that a long experience as publishers could suggest, was used to prevent errors and the omission of the name of any inhabitant, and no labor or expense was spared by us in our endeavor to present to the citizens of Fort Wayne a Directory, as perfect as a work of the kind can possibly be made. We trust that an examination of the Directory will prove that we have not expended our labor in vain.

The Work embraces a General Directory, giving a full List of the Names, Business Pursuits, and Locations of the inhabitants of the City of Fort Wayne; a complete Business Directory, containing the Name of each Person and Firm engaged in Business in the city; with a City Guide, giving the Names and Locations of all Churches, Societies, Banks, and other Institutions and Public Places, &c.; together with Knight Bros.' Digest of United States Patent Laws, a new United States Post Office Directory, containing the Name and Location of every Post Office in the United States and Territories, arranged alphabetically, and corrected up to date.

Our new Directory, for 1870-71, contains over Seven Thousand Names, which is a much larger number than is contained in any Directory previously published for the City. Within the last seven years the City has not only greatly increased in population, but many splendid business blocks have been built, and a large number of residences erected — some of which for architectural beauty and mechanical finish are unsurpassed in the country. The increase in population and wealth of the City of Fort Wayne has been, in the last few years, greater than any city in the State; and with her present and projected Railroads, and her vast and unexcelled Water Power, we feel assured that she will soon become one of the largest and wealthiest cities of the State of Indiana.

We return our thanks to the merchants and business men of Fort Wayne, for the patronage extended to the Work, and to the Press of the City for the many flattering notices given us as publishers, and renew our promise to the public to faithfully labor to make each succeeding Issue of our Directory more worthy of commendation and patronage.

Fort Wayne College—West end Wayne street. The Institution was first informally set before the public September 28, 1846, by a meeting of a Board of Trustees not under the charter. In January, 1847, a charter was granted by the State Legislature incorporating the Institution as "Fort Wayne Female College." The Trustees first met under the charter June 19, 1847. The corner-stone was laid with appropriate ceremonies June 23, 1847. And the College was opened in October, 1847, for the reception of students. In the spring of 1850 gentlemen were admitted to the classes by permission, and May 14, 1853, a school for gentlemen, styled the "Fort Wayne Collegiate Institute," was incorporated, the two Institutions being virtually one in Faculty, Classes and Edifice. On the 10th day of October, 1855, the two Institutions were consolidated by law, with the name and title of "Fort Wayne College," under a charter as ample as any College in the land. Since that both sexes have been, as equals, admitted to its halls. From its origin, a degree of prosperity attended which made its friends confident that the hand and blessing of Providence was in the enterprise. It has educated very many, and has graduated a large number, all of whom can be spoken of honorably as workers; earnest and zealous. Faculty—Rev. John B. Robinson, A. M., President, and Professor of Ancient Languages and Sciences; Rev. Levi Beers, A. B., Professor of Mathematics; Adelia A. Hitchcock, A. B., Instructor of Modern Languages and English Literature; Almon K. Virgil, Principal of Musical Department; Albert Joost, Instructor of Piano; Chas.
